

# KeepSafe™

The ergonomically-flexible laptop storage unit

While convenient, laptops pose a security risk due to their portability, and challenges in terms of comfort during use. KeepSafe™ is an above-the-desk-mounted laptop storage unit designed to also enhance user comfort. In addition to providing critical laptop security, KeepSafe™ allows for ergonomic flexibility while using a laptop. When KeepSafe™ is used with the optional Lapjack™ accessory, an ergonomic workstation can be created. The screen can now be positioned at a comfortable viewing angle and height while the user works in an ergonomically-correct position. Laptop users can now work comfortably, pick up and go at a moment's notice and keep critical data safe with KeepSafe™.

## KeepSafe™ Advantages:

- Laptop height can be adjusted to the proper focal angle, for maximum comfort in almost any position, with the optional lightweight Lapjack™ accessory
- Lapjack™ can be used with KeepSafe™ or on its own with any laptop
- Lapjack™ optional accessories include an in-line copy holder and cable router
- KeepSafe's™ sensible vertical storage capability frees up valuable workspace
- Attractive exterior design with molded accessory tray complements any décor
- Dry erase surface on the front of the unit for handy reminder notes
- Side-mount security lock is not visible to the casual observer but keeps valuable data safe and sound
- Also available in wall mount version, hardware included
